

Mrs. Pannell's math, science and social studies  
Newsletter  
August 15-19, 2016

**REMINDERS**

\* Please remember to turn in any papers (registration, proof of residency, housing survey, etc.)

\*The school is selling popsicles every day at recess time for .50

**Science/ social studies:**

We will begin reading "The Astonishing Journey of Teddy Bodain". This story is about a girl in late 1800's who traveled across the south into Florida to start a new life. Every day, we will read a letter she wrote discussing her journey/life. We will be working on this story for awhile and do activities, tests and reading comprehension along with the story.

**MATH-**

We began multiplication last week. We learned about repeated addition, arrays, commutative property. This week, we will finish up chapter 4 and test on Friday.

**It is VERY important that your child is practicing their multiplication tables on their own at home.** This will prepare them to begin the timed tests we will begin soon.

**HOMEWORK:** Monday: 4-3 worksheet, Tue/Wed: Study for Chapter 4 test on Thursday!

Who is SHINING in math?

Carly Shells  
Jamyia Ward

Great job in class!!!
